Dear Valued Trader,
Welcome to Aventis Markets. We appreciate your decision to trade with us. To ensure a fair, secure, and transparent trading environment, we request that all users adhere strictly to the following terms and conditions:

1. Expert Advisors (EAs)
The use of Expert Advisors (EAs) that execute trade closures based on predefined timing rules or exceptionally short holding periods is strictly prohibited.
Unauthorized Plugins: Certain third-party plugins are also not permitted.
Advisory: While EAs can assist in trading, they may introduce substantial risks if not properly optimized. We encourage traders to rely on their own knowledge and exercise caution when using any automated tools.

2.Hedging Guidelines
Permitted: Manual hedging is allowed.
Prohibited Practices: Hedging designed to misuse bonus funds, including the opening of opposite positions across multiple accounts or within the same account to secure risk-free gains.
Hedging arbitrage strategies, with or without the use of Expert Advisors.
Compliance: Engaging in prohibited hedging will result in account disqualification, forfeiture of profits, and possible suspension.

3.High-Frequency Trading (HFT)
Strictly Prohibited: The use of Expert Advisors (EAs) or any automated trading systems designed to execute an excessive number of trades within extremely short time intervals, including high-frequency trading (HFT) strategies, is strictly prohibited. Such trading practices may create unfair market advantages, exploit system inefficiencies, and negatively impact overall trading conditions.
Penalties: Any account found to be engaging in prohibited HFT activities through EAs or other automated methods may be subject to immediate suspension, cancellation of profits, termination of trading privileges, and any other actions deemed necessary by the Company.

4.Scalping Policy
Minimum Duration: Trades must generally be held for a minimum of 180 seconds (3 minutes).
Permitted Scalping: Up to 10% of total trades may be closed before the 180-second threshold, accommodating rapid market conditions.
Rationale: Excessive scalping can overload trading servers, potentially causing price chart disruptions, order cancellations, and execution errors, which may result in significant losses.

5. Latency Trading
Strictly Prohibited: The use of Expert Advisors (EAs), automated trading systems, or trading strategies designed to exploit latency, price feed delays, server response times, execution lags, or any technological inefficiencies for the purpose of obtaining an unfair trading advantage is strictly prohibited.
Consequences: Accounts identified as engaging in latency arbitrage or similar prohibited activities through EAs or other automated methods may be subject to trade cancellation, profit adjustments, account restrictions, suspension, or permanent termination at the sole discretion of the Company.

6. Arbitrage Trading
Disallowed Strategies: All forms of arbitrage—including latency, triangular, and cross-broker arbitrage—are prohibited.
Enforcement: Violations will result in account termination and forfeiture of associated profits.

7. General Conduct
Aventis Markets Limited is committed to upholding the highest standards of trading integrity. Traders are expected to engage in fair and ethical trading practices at all times. Failure to comply with these terms will be met with appropriate disciplinary actions, up to and including permanent account suspension.

Support & Inquiries
For any questions or concerns regarding these policies, please contact our support team directly. We are here to assist you.

Thank you for your understanding and cooperation.
